PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years of experience architecting and shipping scalable **web and mobile applications** using **React.js, Next.js, React Native, TypeScript, and JavaScript (ES6)**. Specialized in frontend system design, **component-driven architecture, state management** (Redux Toolkit, React Query), **SSR/SSG**, and **performance optimization** (Core Web Vitals, code splitting, bundle optimization). Track record of leading feature delivery end-to-end, integrating **REST/GraphQL APIs** and secure **payment systems, mentoring engineers**, and driving measurable improvements in **performance, reliability**, and user engagement across **SaaS, FinTech, E-commerce, and Enterprise products**.

CORE SKILLS

- **Frontend:** React.js, Next.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/SASS, Tailwind CSS, Material UI, Responsive Web Design, Progressive Web Apps (PWA)
- **State Management:** Redux, Redux Toolkit, React Query (TanStack Query), Context API, Custom
- **Backend & API Integration:** Node.js, Express.js, RESTful APIs, GraphQL, Firebase, JWT Authentication,
- **Performance:** Code Splitting, Lazy Loading, Bundle Optimization, Tree Shaking, Core Web Vitals (LCP, CLS, FCP), React.memo, useMemo, useCallback, SEO Optimization
- **Testing & QA:** Jest, React Testing Library, Cypress - Unit, Integration & End-to-End
- **Architecture:** SPA, SSR, SSG, Component-Driven & Micro-Frontend Architecture, Scalable Design
- **Databases & DevOps:** Git, GitHub, GitHub Actions, CI/CD Pipelines, Vercel, Netlify, MongoDB, MySQL,
- **Methodologies & Tools:** Agile/Scrum, Code Reviews, Technical Mentoring, Stakeholder Communication, Jira, Storybook, Postman

WORK EXPERIENCE

Software Development Engineer (Frontend)

Repository Technologies Pvt. Ltd, Hisar, Haryana, India

Jul 2020 – Present

Service-based organization delivering custom web & mobile solutions across SaaS, E-commerce, FinTech, and Enterprise domains

- Led design, development, and deployment of **12+ scalable web and mobile applications** using **React.js, Next.js, React Native, and TypeScript**, serving **100K+ users** across SaaS, E-commerce, FinTech, and Enterprise platforms.
- Architected **reusable, component-driven frontend systems** and **design patterns**, cutting new-feature development time and improving cross-project code maintainability.
- Built high-performance UIs with **React Query, Redux Toolkit, code splitting, lazy loading, and memoization**, reducing redundant API calls by **40%** and improving perceived responsiveness.
- Improved **Core Web Vitals (LCP, CLS, FCP)** and **SEO performance** through rendering and load-time optimization, lifting organic search visibility and user engagement.
- Integrated and secured **RESTful APIs, GraphQL services, JWT authentication, and Role-Based Access Control (RBAC)** across production applications.
- Implemented **Stripe, PayPal, and Razorpay** payment integrations supporting **10,000+ monthly transactions** with zero critical security incidents.
- Implemented **Firebase Cloud Messaging (FCM)-based push notifications** for real-time status updates across **Android and iOS applications**.
- Built and maintained a **50+ component design system library** using **TypeScript, Material UI, and Storybook**, cutting new-feature build time through component reuse.
- Ran **code reviews**, established **frontend coding standards**, and mentored **3+ junior developers**, improving code quality and delivery consistency.

KEY PROJECTS

HRMS - Human Resource Management System (Internal Product)

[Live Demo](#)

Tech Stack: *React.js, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs*

- Built an end-to-end **HRMS** platform handling attendance tracking, payroll/salary generation, and leave and advance/loan request workflows for internal company-wide use.
- Developed a **real-time attendance** module (**check-in/out tracking**) feeding directly into automated **salary** and **payroll calculations**, cutting manual payroll processing effort
- Designed admin dashboards for **HR/finance** teams to **track attendance** trends, **pending approvals**, and **payroll status** in real time, improving process visibility.

Elegant - Role-Based Mobile Platform (Android & iOS)

Tech Stack: *React Native, Node.js, Express.js, MongoDB, REST APIs, Firebase Cloud Messaging (FCM)*

- Implemented a multi-role **RBAC** system for **Influencers**, **Salespersons**, **Distributors** with role-specific permissions, authentication, authorization, and approval workflows.
- Implemented **Firebase Cloud Messaging (FCM)-based push notifications** for real-time updates related to **request approvals**, **sales/site activities**, **rewards**, and **other important events**.
- Built **sales/sites** and incentive workflows, enabling **Influencers** to submit requests, **Salespersons** to approve them, and automatically **awarding reward points** based on **predefined sales criteria**.
- Managed production deployment and app publishing for **Android** and **iOS**, successfully releasing the application on the **Google Play Store** and **Apple App Store**.

CastCrew - Casting & Talent Management Platform

[Live Demo](#)

Tech Stack: *React.js, TypeScript, Tailwind CSS, React Query, Node.js, MongoDB*

- Designed and developed the **web application end-to-end**, including frontend development, **UI/UX**, **REST API** development, database design, and business logic implementation.
- Implemented **authentication**, **authorization**, and **Role-Based Access Control (RBAC)** for Actors, Production Teams, and Admins with role-specific permissions and workflows.
- Developed **talent discovery and casting features**, including actor profile management, talent search, filtering, shortlisting, and casting request management.
- Implemented **admin workflow management** for talent approval, availability management, casting requests, and casting lifecycle tracking.

Healthcare E-Commerce Platform (US-Based)

Tech Stack: *React.js, Redux, JavaScript, Styled-Components, Node.js, MongoDB*

- Modernized the **React application** by migrating **class-based components to functional components**, improving maintainability and adopting modern React development patterns.
- Contributed **30–40% toward integrating PayPal, Stripe, and Razorpay payment gateways**, working on payment flows and frontend-backend integration.
- Developed product **listing/card pages** and **responsive UI components** using **React** and **Styled-Components**, focusing on usability and consistent **UI/UX**.
- Worked with **REST APIs** to fetch and render dynamic product data, connecting frontend components with backend services and displaying real-time data in the application.

EDUCATION

B.Tech, Computer Science & Engineering - BRCM College of Engineering & Technology

2021 – 2024

Diploma, Computer Science & Engineering - Government Polytechnic, Hisar

2017 – 2020

CERTIFICATIONS & ACHIEVEMENTS

- Problem Solving (Intermediate) Certificate - [HackerRank Certificate](#)
- React Js - Complete Guide for Frontend Web Development - [Udemy Certificate](#)
- Successfully developed, deployed, and maintained mobile applications on Google Play Store and Apple App Store
